COASTER KART

THE LATEST GENERATION OF DRIVING PLEASURE BROUGHT TO YOU BY WIEGAND

The CoasterKart offers dynamic driving fun for all ages, because here everyone becomes a racing driver: Simply get in, lock the bars and hit the ground running!

Guests actively determine their own driving speed by using the „joystick“ in the cart – acceleration of up to 40 km/h by a linear induction motor is possible!

The circuit can be individually designed with up-hill and downhill rides, bridges and crossings and can also be used as a means of transport with several entrances and exits.

Individual theming of the vehicles is also possible – ideal for integration into an existing or planned theme world.

The innovative ride experience and highlight for every family amusement park!

Green light 365 days a year

MADE IN GERMANY

THE MOST IMPORTANT FACTS

ECONOMIC BENEFITS

- Realistic capacity: 500 pph
- Low maintenance
- ROI from 2 years
- Can be used as a means of transport (people mover)

SITE CONDITIONS

- No height difference required
- Max. 15% terrain gradient
- Indoor & outdoor operation possible

SAFETY AND TECHNOLOGY

- Continuously lockable hydraulic restraint system
- Partially automated station operation
- Block system with distance control
- Contactless LIM propulsion

STRUCTURE OF THE SYSTEM

- Construction without track foundations
- Overpasses and underpasses
- Tunnels, bridges, helixes/circles

Electrifying FUN
